

## **Sintered insulating hollow brick and its productive technology**

**Patent number:** CN1293295  
**Publication date:** 2001-05-02  
**Inventor:** WEI WEI (CN)  
**Applicant:** WEI WEI (CN)  
**Classification:**  
- **International:** E04D1/24; B28B1/44  
- **european:**  
**Application number:** CN20000117406 20000908  
**Priority number(s):** CN20000117406 20000908

### **Abstract of CN1293295**

A sintered insulating hollow brick is made up of clay and flyash through plastic squeezing, cutting and sintering. Its advantages are two insulating structures for double-layer insulating, quick heatdissipation, light weight, high strength, low water absorption, high weatherability and low cost. It is especially suitable for roofing.
